PROSPECTUS SUMMARY

The following summary highlights information contained elsewhere in this prospectus. It does not contain all of the information you need to consider in making your investment decision. Before making an investment decision, you should read this entire prospectus carefully and you should consider, among other things, the matters set forth under “Risk Factors” and our financial statements and related notes thereto appearing elsewhere in this prospectus.

In this prospectus, except as otherwise indicated, “RenovoRx,” the “Company,” “we,” “our,” and “us” refer to RenovoRx, Inc., a Delaware corporation.

Company Overview

We are a life sciences company developing innovative targeted oncology therapies and commercializing **RenovoCath**[®], a novel, U.S. Food and Drug Administration (“FDA”)-cleared local drug-delivery device, targeting high unmet medical needs. Our mission is to transform the lives of cancer patients by providing innovative solutions to enable targeted delivery of therapeutic agents.

Our patented **Trans-Arterial Micro-Perfusion (TAMP)**[™] therapy platform, enabled by RenovoCath, is designed for targeted therapeutic delivery across the arterial wall near the tumor site (known as intra-arterial, or IA delivery) to bathe the target tumor, while potentially minimizing a therapy’s toxicities versus systemic intravenous therapy. Our novel approach to targeted treatment offers the potential for increased safety, tolerance, and improved efficacy. RenovoCath is indicated for temporary vessel occlusion in applications including arteriography, preoperative occlusion, and chemotherapeutic drug infusion.

We are actively commercializing the TAMP therapy platform and RenovoCath as a stand-alone device within its FDA cleared fields of use. We are a commercial-stage growth company commercializing RenovoCath in the United States, have received our first commercial purchase orders for RenovoCath devices in December 2024. For the year ended December 31, 2025, we generated an aggregate of \$1.1 million in revenue from RenovoCath sales. These sales are from U.S. cancer centers that initiated repeat orders as well as new institutions adopting the device, including several esteemed, high-volume National Cancer Institute-designated centers. While we strive to meet and satisfy the anticipated demand, we continue to actively explore further revenue-generating activity, either on our own or in tandem with a medical device commercial partner.

As of February 27, 2026, 12 U.S. cancer centers were utilizing RenovoCath, and 21 additional centers were evaluating the device, had completed evaluation, or were preparing for activation. These 33 centers represent a tripling of our near-term pipeline compared to the first quarter of 2025. The growing adoption reflects increasing clinical demand for RenovoCath as it becomes integrated into overall cancer treatment paradigms and sets the stage potential revenue expansion in 2026. In addition, we built our sales and marketing infrastructure from scratch with our full sales and marketing team having been launched in late 2025. With this, we established the systems and processes needed to scale and believe having this team in place further bolsters our prospects.

We are also evaluating our novel drug-device combination oncology product candidate (IA delivery of the FDA-approved chemotherapy gemcitabine via RenovoCath, which we call **IAG**) in our ongoing Phase III TIGeR-PaC trial. IAG is being evaluated by the Center for Drug Evaluation and Research (the drug division of the FDA) under a U.S. investigational new drug application that is regulated by the FDA’s 21 CFR 312 pathway. IAG utilizes RenovoCath, which is indicated for temporary vessel occlusion in applications including arteriography, preoperative occlusion, and chemotherapeutic drug infusion.

Our IAG combination product candidate, which is enabled by the RenovoCath device, is currently under investigation and has not been approved for commercial sale. RenovoCath with gemcitabine received Orphan Drug Designation for pancreatic cancer and bile duct cancer, which provides seven years of market exclusivity upon new drug application approval by the FDA.

We believe the initial target market for RenovoCath would be approximately \$400 million in peak annual U.S. sales, based on our internal assumptions, which include: (i) pressure-mediated delivery catheters on market today, which are analogous to RenovoCath, have an average selling price of \$6,500-\$8,500 per unit; (ii) approximately 7,000 initial target patients at peak market penetration; and (iii) an average of at least 5 to 6 procedures per patient.

We also believe there are expansion opportunities across other clinical indications that could ultimately create a multi-billion-dollar total addressable market potential for RenovoCath. We believe that we can achieve meaningful market penetration with our sales and marketing team targeting the top 200 high-volume treatment centers. Furthermore, and importantly, there is a current reimbursement code with the Centers for Medicare and Medicaid Services covering specialty pressure-mediated delivery catheters, which creates incentives for hospitals to adopt more advanced technology, like RenovoCath.

We continue to advance broader clinical programs by generating new data through post-marketing registry studies in solid tumors and continued support of investigator-initiated trials in borderline resectable and metastatic pancreatic cancer, along with exploring physician interest in other areas. Registry and IIT trials achieve cost neutrality as capital-efficient studies providing meaningful data that may further broaden the application for the TAMP.

- Terms of the Offering:** The selling stockholders will determine when and how to sell the Selling Stockholder Shares offered in this prospectus, as described in “*Plan of Distribution*.”
- Use of Proceeds:** We will not receive any proceeds from the sale of Selling Stockholder Shares in this offering. However, we may receive proceeds from the exercise of the Milestone Warrants by the selling stockholders to the extent they are exercised for cash. In the event we receive proceeds from the cash exercise of the Milestone Warrants, we intend to use the aggregate net proceeds from such exercise for general corporate purposes, including working capital. See the sections titled “*Use of Proceeds*” and “*Selling Stockholders*” for additional information.
- Listing and Symbols:** Our common stock is listed on The Nasdaq Capital Market under the symbol “RNXT”.
- Risk Factors:** *Investing in our securities is speculative and involves substantial risks.* You should read the “*Risk Factors*” section of this prospectus and in the documents incorporated by reference in this prospectus for a discussion of factors to consider before deciding to purchase our securities.

Shares of our common stock that may be offered under this prospectus will be fully paid and non-assessable. Throughout this prospectus, when we refer to the shares of our common stock being registered on behalf of the selling stockholders for offer and resale, we are referring to the Shares that have been issued to the selling stockholders and the PFW Shares and the Milestone Warrant Shares issued in the March 2026 Private Placement. When we refer to the selling stockholders in this prospectus, we are referring to the selling stockholders identified in this prospectus and, as applicable, their permitted transferees or other successors-in-interest that may be identified in a supplement to this prospectus or, if required, a post-effective amendment to the registration statement of which this prospectus is a part.

RISK FACTORS

Investing in our securities is speculative and involves a high degree of risk. Before making a decision to invest in our securities, in addition to carefully considering the risk factors noted below and the other information contained in this prospectus and incorporated by reference herein, you should carefully consider the risks described under the caption “*Risk Factors*” contained in our Annual Report on Form 10-K for our fiscal year ended December 31, 2025 and in our other filings with the SEC, as well as any amendments thereto, which are incorporated by reference into this prospectus in their entirety. See “*Where You Can Find More Information*” and “*Incorporation of Certain Information by Reference*.”

Risks Relating to this Offering

If you purchase the common stock being offered in this offering, you may experience immediate dilution as a result of this offering.

Since the price per share of our common stock being offered may be substantially higher than the net tangible book value per share of our common stock, you may suffer immediate and substantial dilution in the net tangible book value of the common stock you purchase in this offering.

You may experience future dilution as a result of future equity offerings.

In order to raise additional capital, we may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock that could result in further dilution to the investor purchasing our common stock in this offering or result in downward pressure on the price of our common stock. We may sell shares of our common stock or other securities in any other offering at prices that are higher or lower than the prices paid by the investor in this offering, and the investor purchasing shares or other securities in the future could have rights superior to existing stockholders. Moreover, to the extent that we issue options or warrants to purchase, or securities convertible into or exchangeable for, shares of our common stock in the future and those options, warrants or other securities are exercised, converted or exchanged, stockholders may experience further dilution.

The trading price of our common stock has been, and is likely to continue to be highly volatile and could be subject to wide fluctuations in response to various factors, some of which are beyond our control.

Our stock price is volatile. During the period from March 20, 2025 to March 20, 2026, the closing price of our common stock ranged from a high of \$1.42 per share to a low of \$0.73 per share. The stock market in general and the market for smaller pharmaceutical and biotechnology companies in particular have experienced extreme volatility that has often been unrelated to the operating performance of particular companies. As a result of this volatility, you may not be able to sell your common stock at or above the public offering price and you may lose some or all of your investment.

We issued a large number of shares of common stock and warrants to purchase common stock in connection with our recent financing activities. Substantial future sales of such shares of our common stock could cause the market price of our common stock to decline or have other adverse effects on our company.

In connection with our public and private placement financing activities in 2024, 2025 and 2026, we issued a large number of shares and warrants to purchase common stock. Such shares and shares underlying warrants have been registered at initial issuance or for public resale. Sales of a substantial number of these shares in the public market, or the perception that these sales might occur, could depress the market price of our common stock or cause such market price to decline significantly. Such sales or the perception that such sales might occur could also impair our ability to raise capital through the sale of additional equity securities. We are unable to predict with any certainty the effect that such sales, or the perception that such sales may occur, may have on the prevailing market price of our shares or other adverse impacts that this situation could have on our company.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the Selling Stockholder Shares by the selling stockholders. However, we may receive proceeds from the exercise of the Milestone Warrants by the selling stockholders to the extent they are exercised for cash. We estimate that the maximum proceeds that we may receive from the exercise of the Milestone Warrants, assuming all the warrants are exercised for cash at their applicable exercise prices, will be approximately \$9.3 million. We do not know, however, whether any of the Milestone Warrants will be exercised or, if any of such warrants are exercised, when they will be exercised. It is possible that the Milestone Warrants will expire and never be exercised. There are circumstances under which the Milestone Warrants may be exercised on a cashless basis. In these circumstances, even if such warrants are exercised, we may not receive any proceeds, or the proceeds that we do receive may be significantly less than what we might expect.

We will retain broad discretion over the use of the net proceeds to us from the exercise of the Milestone Warrants. Unless otherwise provided in the applicable prospectus supplement, we currently expect to use the aggregate net proceeds from the exercise of the Milestone Warrants for general corporate purposes, including working capital. We may also use a portion of the net proceeds to acquire, license or invest in complementary products, technologies or businesses; however, we currently have no agreements or commitments to complete any such transaction. The expected use of net proceeds from the exercise of the Milestone Warrants represents our current intentions based on our present plans and business conditions. We cannot specify with certainty all of the particular uses for the net proceeds to be received from the exercise of the Milestone Warrants. Pending these uses, we plan to invest the net proceeds of this offering in short- and intermediate-term, interest-bearing obligations, investment-grade instruments, certificates of deposit or direct or guaranteed obligations of the U.S. government. The actual allocation of proceeds realized from the exercise of the Milestone Warrants will depend upon the amount and timing of such exercises, our operating revenues and cash position at such time and our working capital requirements.

The selling stockholders will pay any expenses incurred by the selling stockholders for brokerage, accounting, tax or legal services or any other expenses incurred by the selling stockholders in disposing of their shares of common stock. We will bear all other costs, fees and expenses incurred in effecting the registration of the Selling Stockholder Shares covered by this prospectus, including, without limitation, all registration fees and fees and expenses of our counsel and our accountants.

SELLING STOCKHOLDERS

The shares of common stock being offered by the selling stockholders listed below were issued in, or are underlying the Pre-Funded Warrants and the Milestone Warrants issued in connection with, the March 2026 Private Placement. Other than the relationships as purchasers under the Securities Purchase Agreement (as defined below) and as otherwise described herein, to our knowledge, no material relationships exist between any of the selling stockholders and us nor have any such material relationships existed within the past three years.

As used herein, the term “selling stockholders” means the selling stockholders listed below and such holders’ donees, pledgees, transferees, or other successors-in-interest selling shares of common stock or warrant shares received after the date of this prospectus from a selling stockholder as a gift, pledge, partnership distribution or other transfer.

Summary of March 2026 Private Placement

On March 17, 2026, we entered into a securities purchase agreement (the “Securities Purchase Agreement”) in connection with the March 2026 Private Placement to 15 accredited investors or qualified institutional buyers (the “Investors”), five of whom are our directors, officers or employees of our company (the “Insiders”) and the remaining are non-affiliated institutional investors (the “Institutional Investors”). The March 2026 Private Placement was also closed on March 20, 2026. In connection with the March 2026 Private Placement, we raised aggregate gross proceeds of approximately \$10 million, before deducting placement agent fees and expenses payable by us.

In connection with the March 2026 Private Placement, we sold to the selling stockholders an aggregate of (i) 8,438,790 Shares of our common stock, (ii) Pre-Funded Warrants to two Investors to purchase 2,200,000 PFW Shares and (iii) Milestone Warrants to purchase an aggregate of 5,319,392 shares of common stock.

The purchase price paid by the Institutional Investors for each Share and related Milestone Warrant was \$0.938. To comply with Nasdaq Stock Market rules, the purchase price paid by the Insiders for each Share and related Milestone Warrant was \$1.0288.

The Pre-Funded Warrants were offered to any Institutional Investor whose purchase of the Shares in the March 2026 Private Placement would result in such Investor, together with its affiliates and certain related parties, beneficially owning more than 4.99% (or at the election of the Investor, 9.99%) of the outstanding common stock immediately following the consummation of the March 2026 Private Placement, the opportunity to purchase, if it so chooses, up to Pre-Funded Warrants, in lieu of the common stock that would otherwise result in ownership in excess of 4.99% (or 9.99%, as applicable) of the outstanding common stock. The purchase price of each Pre-Funded Warrant will equal the price per share of common stock being sold to the Institutional Investors in the March 2026 Private Placement, minus \$0.0001, and the exercise price of each Pre-Funded Warrant will be \$0.0001 per share. The Pre-Funded Warrants do not expire and each Pre-Funded Warrant will be immediately exercisable and may be exercised at any time until exercised in full.

The Milestone Warrants are exercisable immediately upon issuance and expire on the earlier of (i) March 30, 2029 or (ii) 30 days following the date we report at least \$1.5 million in product sales revenue (excluding licensing fees, upfront milestones and grants, but including royalty revenue from product sales) for any calendar quarter in a quarterly or annual report. The Milestone Warrants will entitle the holder to purchase Milestone Warrant Shares at an exercise price equal to \$1.751 per share for the Institutional Investors and \$1.9326 for the Insiders. The Milestone Warrants are subject to a beneficial ownership limitation, preventing any holder from exercising a Milestone Warrant if such exercise would result in the holder and its affiliates beneficially owning more than 4.99% (or 9.99% at the holder’s election) of the outstanding common stock. The exercise price and the number of Milestone Warrant Shares issuable upon exercise of the Milestone Warrants is subject to adjustment in the event of recapitalization events, stock dividends, stock splits, stock combinations, reclassifications, reorganizations or similar events affecting the common stock, and also upon any distributions of assets, including cash, stock or other property to our stockholders.

Pursuant to the Securities Purchase Agreement, we agreed to file a registration statement for the resale of the Shares, PFW Shares and the Milestone Warrant Shares within thirty (30) days after the execution of the Securities Purchase Agreement and to use commercially reasonable efforts to cause such registration statement to become effective within thirty (30) calendar days following the initial filing date. We have filed the registration statement of which this prospectus is a part to satisfy this obligation.

Selling Stockholders Table

The table below lists the selling stockholders and other information regarding the beneficial ownership of the shares of common stock by each of the selling stockholders. The table below sets forth information as of the date of this prospectus, to our knowledge, about the beneficial ownership of our common stock by the selling stockholders both before and immediately after this offering. Because the selling stockholders may sell, transfer, or otherwise dispose of all, some, or none of their shares of common stock, we cannot determine the number of such shares that will be sold, transferred or otherwise disposed of by the selling stockholders, or the amount or percentage of shares of our common stock that will be held by the selling stockholders upon termination of any particular offering. See “*Plan of Distribution.*” For purposes of the table below, we assume that the selling stockholders will sell all of their shares of common stock.

PLAN OF DISTRIBUTION

We are registering the Selling Stockholder Shares on behalf of the selling stockholders to permit the resale of such shares by the selling stockholders from time to time after the date of this prospectus. A selling stockholder may use any one or more of the following methods when disposing of shares or interests therein:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its own account;
- an exchange distribution in accordance with the rules of the applicable exchange;

The selling stockholders also may transfer the shares of common stock in other circumstances, in which case the pledgees, transferees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling stockholders also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 under the Securities Act, as permitted by that rule, or Section 4(a)(1) under the Securities Act, if available, rather than under this prospectus; provided that they meet the criteria and conform to the requirements of those provisions.

The aggregate proceeds to the selling stockholders from the sale of the common stock offered by them will be the purchase price of the common stock less discounts or commissions, if any. The selling stockholders reserve the right to accept and, together with its agents from time to time, to reject, in whole or in part, any proposed purchase of common stock to be made directly or through agents. To the extent required, the shares of our common stock to be sold, the name of the selling stockholder, the respective purchase prices and public offering prices, the names of any agents, dealer or underwriter, and any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

If underwriters are used in the sale, the shares of common stock will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. In connection with any such underwritten sale of shares of common stock, underwriters may receive compensation from the selling stockholder, for whom they may act as agents, in the form of discounts, concessions or commissions. If the selling stockholder uses an underwriter or underwriters to effectuate the sale of shares of common stock, we and/or it will execute an underwriting agreement with those underwriters at the time of sale of those shares of common stock.

To the extent required by law, the names of the underwriters will be set forth in a prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes the prospectus supplement and the accompanying prospectus used by the underwriters to sell those securities.
